ONDEXX
Knowledge Management Solution

Question		
Are your company's treaties stored in a single, centralized repository where they can be viewed by all required employees and accessed simultaneously?	☐ Yes	☐ No
Is it easy to manage your treaties by reinsurer or ceding company - and can you sort them by region, type, line of business, and effective date?	☐ Yes	☐ No
Is it easy to file, store, and find your company's treaties; and can you search for words and phrases within and across your documents?	☐ Yes	☐ No
Can you easily manage internal and external user access rights and permissions in order to author, edit, and view your treaties?	☐ Yes	☐ No
Do you find that your process in developing and managing treaties, including collaboration and communication easy, reliable, and consistent?	☐ Yes	☐ No
Are you confident that your treaties are secure and that your company does not leak or lose any critical content?	☐ Yes	☐ No

If you answered 'No' to any of these questions - Ondexx can help!

Ondexx provides a single source repository to manage, sort, and store all of the treaties and contracts that your insurance business uses in a highly secure, searchable, and usable solution.
